

AUTISM INITIATIVE, PAST AND FUTURE...

as of October 2023

Two-hour 'Discussion Sessions' with:

- A Robotics Club and teachers and students at Wilson HS in Rochester
- A Boys and Girls Club on the St. Regis Mohawk Akwesasne Reservation
- Professors at the State University of New York in Potsdam
- County-wide nurses in St. Lawrence County

And...

In partnership with the local Board of Cooperative Services (BOCES), we have scheduled a full day 'Autism Forum' March 15th for community organization leaders and school staff.

Through a grant awarded by the Saint Regis Mohawk Tribe, the *Autism Initiative*, in partnership with the Akwesasne Community, will hold a three-day Autism Conference in summer 2024. The conference will be on the reservation and open to all who would like to attend.

A Clarkson University student organization will conduct a fundraising event for the Autism Initiative sometime this fall.

The Autism Initiative has also made presentations to Rotary and other service organizations and is scheduling presentations for students at Clarkson University and are in discussions with student groups elsewhere.
